This institution is an equal opportunity provider and employer.

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at http://www.ascr.usda.gov/complaint_filing_cut.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

WELCOME

Thank you for signing up with NCC telecommunication services! We are your local cooperative working to bring modern communication services to Northwest North Dakota and are proud to have you as a member.

This booklet contains information about your cooperative and each of the products and services that are available.

NCC provides:

- Telephone features such as call waiting, caller identification, voice mail, three way calling and many more.
- Internet services available in the entire NCC cooperative area.
- TV Video available with local channels including local news, weather and community channel. Plus, whole DVR, PPV and movie channels.
- Phone systems and telephones for your home or business.
- North Dakota Long Distance (NDLD) offers long distance telephone rates with plans available to fit anyone's long distance calling needs.
- Protect you, your family, and your property with NCC Security, a 24/7/365 alarm monitoring service for burglary, fire, smoke, carbon monoxide, water, temperature, and more.

To keep connected with you, our customer, NCC provides several different ways for you to stay updated on community and NCC happenings. NCC provides local content, local news, and local weather on our cable television system. Please visit our website at www.nccray.com to view additional information regarding our products and services. This site is updated regularly and also provides exciting news, photos and local happenings. You will also receive our monthly newsletter, the Ringer.

We appreciate you choosing NCC as your local provider. Please contact us with any questions or comments locally **568-3331, toll free 800-245-5884 or email ncc@nccray.com. You can also follow us on Facebook: www.facebook.com/northwestcommunications.**    

COOPERATIVE MEMBERS

NCC is a cooperative which means it is owned by those we serve. By receiving service from NCC you are automatically a member of the cooperative. As a member, you have the opportunity to take part in the operation of your cooperative each year by nominating and voting for candidates for director positions at the NCC Annual Meeting the 3rd Tuesday in June. NCC was formed in 1951 to provide low cost quality telephone service to its member-owners and has grown into a broadband company with speeds up to 1Gig for every member. See the front cover of the NCC telephone directory, where the Districts and current Directors are listed.

MISSION STATEMENT

It is the mission of Northwest Communications Cooperative to be the premier provider of communications services in northwest North Dakota.

CORE VALUES

- We exist for the benefit of our customers, and will provide high-quality, competitively-priced services.
- We will be good stewards of the Cooperative's assets, and offer services where they are technically and economically feasible, to ensure long-term financial viability.
- Our employees are an important asset, and we will provide them with the opportunities and tools necessary to accomplish our mission.
- For our communities, we will continue to be good corporate citizens and strive to enhance the quality of life in northwest North Dakota.
- We will conduct our business with the highest degree of integrity.

- Environmental
- Water
- Low Temperature
- (freeze detector)
- Dual Temperature

Additional sensors and services are available at additional cost. Contact us to customize your system for your home or business monitoring needs.

TECHNICAL SUPPORT

Internet Support

Before calling to report an Internet trouble, please do the following:

- Shut down your computer. Unplug the power cord from the back of the modem and check the front of the modem to ensure that all the lights have been turned off. After 30 seconds, plug the modem back into the power source. Turn your computer back on. Wait 5 minutes and try your connection again.
- If this does not work, you can reach an NCC Internet Customer Service Representative Monday – Friday, 8:00 a.m. to 5:00 p.m. by calling the NCC Business Office 568-3331. Calls to the NCC office after hours and when an NCC Internet Customer Service Representative is not available are answered by ISPN who can provide technical support over the phone 24 hours per day, 7 days per week.

Telephone Support

If you are experiencing no dial tone or static on the line:

- Check all telephone cords – from jack to telephone base and from telephone base to the handset-make sure they are not loose or damaged.
- Try a different telephone handset. Unplug the current telephone handset from the jack and plug in a different handset to see if it works.
- Hang up all telephones. Make sure all telecommunications equipment, answering machines, fax machines, caller ID boxes, computer modems and telephone sets are working.

To check, unplug each piece of equipment from the phone jack and electrical outlet. Leave everything unplugged for five minutes. Then, try plugging in the equipment one at a time and check to see if the trouble clears.

- If the problem is that you are unable to call long distance, you will need to contact your long distance carrier. If NDLD is your long distance carrier, you will need to contact NCC at 568-3331.
- If you are still experiencing issues, it might be in the phone line or wiring and you will need to call NCC to report the trouble 568-3331.

During a power outage: Your landline phone will continue to work. Cordless phones generally will not work. After power has been restored, you may need to reset your cordless phone by unplugging it from the jack.

Cameras now available – call for a site survey and quote today!

TECHNICAL SUPPORT

eTech Remote PC Repair

e-Tech is a comprehensive technical support solution that's fast, reliable, feature-rich, and affordable. You can manage the headaches of PC issues in the comfort of your own home. Technicians will speak with you to determine the best service package for your immediate needs. Packages including:

Prices and terms subject to change without notice. Please call NCC at 568-3331 for the most current information.

Sheri Torgerson, Customer Service Representative

ABOUT YOUR BILL

Your monthly bill is mailed to you during the first week of each month. You are billed one month in advance (i.e. you receive a bill the first part of January for services in January). Your first bill might seem high. When service is connected anytime during the month, you are billed from the connect date/installation date to the end of that month, plus you are billed for one month in advance on your first statement. If you disconnect service, you should receive credit for any unused service as of the disconnect date. If it is a permanent disconnect, you should receive a check for the credit, as long as we have an updated address on file. Long distance calls placed between the 13th of one month and the 12th of the next month are billed the first week of the following month. NCC has contracts to bill for North Dakota Long Distance and AT&T only. You will receive a separate bill from all other long distance carriers. Bills are due upon receipt and are considered delinquent after the 15th of the month. When your bill has a 30 day balance at the time of billing (usually around the 25th of the month), you will see a delinquent notice on page one of your bill. This notice states the date and time of scheduled disconnection. If you do not pay by that date, you will be disconnected. A separate delinquent notice is not sent. Reconnecting after services have been disconnected for non-pay will require payment in full, plus a \$25/service reconnect fee.

Payment Options

If you are mailing in your payment, you can use the envelope included in your bill from NCC. NCC also has an overnight drop box at our business office at **111 Railroad Avenue** in Ray.

NCC also offers the following convenient payment options:

- Smarthub**
Receive, view and pay your NCC bill online. Also view previous bills and verify payment. Sign up at www.nccray.com It's safe, secure and very convenient. Download the app and pay from your smartphone or tablet.
- Pay by Bank**
Have your payment automatically deducted from your checking or savings account each month. You can still receive your printed and/or E-Bill.
- Pay by Credit/Debit Card**
You can pay your NCC bill automatically with your credit card each month. You can still receive your printed and/or E-Bill.
- NCC Secure Pay**
Make a credit/debit card or check payment 24/7/365 by calling 1-888-816-8068. It's safe to use and can be done anytime it's convenient for you.

IMPORTANT RESOURCES

NCC publishes a monthly newsletter called the Ringer. If you sign up for e-bill and choose not to receive a printed bill from NCC, you will receive an email reminder that your bill and your newsletter can be accessed online at www.nccray.com. You will receive it monthly for free with your statement from NCC.

The NCC Telephone Directory will be mailed to you when you become a new customer. Additional directories can be obtained for free at the NCC Business Office or your local financial institution. New directories are published in August every year. Any changes to the directory should be reported to NCC by the first of April to be included in the next directory.

An Online Telephone Directory can be found on our website.

Important Websites:

www.nccray.com is our corporate website where you will find information, prices and forms for the products and services that we provide to customers.

NCC Facebook page: www.facebook.com/northwestcommunications. Make sure you go on and Like us! We keep this site updated with photos, videos, notifications on outages, and just fun info.    

The Federal Communications Commission website at www.fcc.gov.

The North Dakota Public Service Commission website at www.psc.state.nd.us.

Business Telephone Systems customized to fit your needs.

- NCC Security Monitoring Systems
- Network Solutions
- Fax lines
- Dedicated Circuits
- Website Hosting
- Conference Calling

Winter Disconnect Plan

NCC offers a temporary disconnect plan for customers who wish to temporarily discontinue their Telephone, Internet and Cable TV services, but retain their directory listing and email account while they are away.

IMPORTANT RESOURCES

Telephone

- \$2/mo. to keep your number & listing in the telephone directory.
- \$25 reconnect fee.

High Speed Internet

- Any applicable term contract will be extended by the number of months your service is on temporary disconnect.
- \$25 reconnect fee.

Video/Cable TV

- \$25 reconnect fee.

Remotely Monitor Your Home While Away with a Sensaphone

Monitor your remote facility, cabin or home for power failures, temperature and sound.

- When an alarm is detected, the Sensaphone can notify four people by making voice calls.
- 24 hour battery back up

Contact NCC for more information and purchase price.

Lifeline

Telephone assistance programs are available and include:

Lifeline - low income monthly discount of \$9.25 per month on landline telephone service.

Toll Limitation Service (TLS) - Toll block to prevent long distance calls from your phone, available at no charge to qualifying low-income consumers.

You are eligible for Lifeline and TLS if your household income is 135% of the federal poverty guidelines and/or if you participate in a federal assistance program. When you qualify for any of the above programs, you must certify in our office by completing a Lifeline Assistance Application. Please be prepared to show proof of eligibility. Lifeline assistance is available on one communication service only. More information on Lifeline discounts and eligibility can be found on our website at www.nccray.com/voice.

IMPORTANT RESOURCES

CPNI

Rules implemented by the FCC require us to implement authentication procedures when accessing customer's account information. CPNI is the proprietary (not available to the general public) information that telecommunications carriers, such as NCC, have on file for our customers. NCC will do everything possible to protect the privacy of your information.

Our authentication procedure is as follows:

- Only the person with their name on the account will be allowed to make any changes to the account. It is important to have anyone who makes account changes to be listed on the account.
- You will be asked for a photo ID when you stop in the office to receive account information.
- When calling to inquire about account information, specific information will be asked of you to ensure customer identity.
- A change of name or address for an account will generate a letter and will be mailed to the account holder address on record.
- Call detail information that pertains to specific telephone calls will need to be mailed to the address on account, given over the phone by an NCC employee calling the phone number on record, or the customer can come to NCC and obtain that information by presenting a valid photo ID.
- Our authentication procedures are for your safety, and we appreciate your understanding.

Federal Do-Not-Call Registry

The National Do-Not-Call Registry has been established to offer you a choice about receiving telemarketing calls at home. Registering will stop most telemarketing calls, but it will not stop calls from certain non-profit and political organizations, and calls from organizations with which you have established a business relationship. Consumers can register their residential and wireless telephone numbers, on the National Do-Not-Call Registry by telephone or by Internet at no cost. The number will be on the list the day after registration; however, telemarketers have up to 31 days to remove the number from their call lists. You may register up to three numbers at one time if registering on the Internet. If registering via telephone, you can register only one number at a time and you must call from the telephone number you are registering. A number can be removed from the Do-Not-Call Registry at anytime. To register or remove a number from the Do-Not-Call Registry call 1.888.382.1222, for TTY call 1.866.290.4236 or register on the Internet at www.donotcall.gov. Additional information can be obtained at www.donotcall.gov. Notice to Businesses: Federal law requires any person making telephone solicitations to residential telephone subscribers to comply with the federal Do-Not-Call rules and regulations set forth in 47 C.F.R. 64.1200 and 16 C.F.R. Part 310, including the requirements of the national Do-Not-Call (DNC) Registry.
